

BR IFIC 3013 – NEWS

Release of the application BR IFIC (Space services) online and of the new desktop application for the BR IFIC (Space services)

The Radiocommunication Bureau is pleased to inform that this current BR IFIC is based on a new application with a renewed user interface and that the “BR IFIC (Space services) online” application has been officially released.

BR IFIC (Space services) online

In addition with the distribution on DVD-ROM and the web-based distribution of ISO files, the BR IFIC (Space services) is also available through an online application, the “BR IFIC (Space services) online”: <https://www.itu.int/epublications/brific-space>.

The online application provides access to all BR IFIC (Space services), starting from BRIFIC 2987 dated 10 January 2023.

The BR IFIC (Space services) online is a subscription service and all registered users to the Web-based distribution of the BR IFIC (Space services) have been given full access to the BR IFIC (Space services) online.

Administrations and all other users wishing to have online access to the BR IFIC (Space services) online are requested to contact the ITU Sales division (contact: telephone +41 22 730 5659 or e mail: sales@itu.int) for the necessary registration form.

Desktop application - BR IFIC (Space services)

All forms of distribution of the BR IFIC (Space services) (web interface, ISO format and DVD-ROM), are based on the new application, with a renewed user interface.

The ISO file is available from the BR IFIC online application and continues to be offered from the ITU electronic Bookshop: <http://www.itu.int/pub/R-SP-LN/en>.

Any difficulty encountered or any suggestion for improving the online application should be sent to the following email address: spacehelp@itu.int.

More information can be found on the website of the Space services:

<https://www.itu.int/ITU-R/go/space-brific>

and a user guide is available:
